Thank you to all who attended the fish consumption rate technical review meeting held on November 5. We from Ecology appreciated the robust and helpful discussion.

A second meeting is planned for November 27, 2012 from 9:00 am until noon. Please note: This second meeting will be held at the Port of Seattle Headquarters, at 2711 Alaskan Way, Seattle.

Attached is an updated draft agenda. Based in part on these discussions and on written comments provided during the public comment period for the technical support document, Ecology will be charting the path forward and considering options for further technical work.

Please let our facilitator, Angie Thomson (202.269.5041, athomson@enviroissues.com) know whether you will be able to attend. Thank you, and have a Happy Thanksgiving.
